

Sustainable Interior Finishes Chart

Eykon Design Resources works closely with our manufacturing partners and designers to bring you the best interior finish options available.

This is a list of eco-friendly products with LEED® credits to help you find the best product for your project.

	recyclable (existing material) <small>MR CREDIT 2 eligible on future renovation</small>	recycled content <small>MR CREDIT 4</small>	low- emitting adhesives <small>IEQ CREDIT 4.1</small>	low- emitting materials <small>IEQ CREDIT 4.2</small>	rapidly renewable resources <small>MR CREDIT 6</small>	certified wood <small>MR CREDIT 7</small>

Sincol Flooring*						

*Applies to select patterns

note:

Existing vinyl wallcovering on a job diverted from the landfill and recycled back into new wallcovering products can contribute to LEED® credit: materials and resources (MR 2) construction waste management.
